

NEWS RELEASE

CYBERNET MALAYSIA EXPANDS PTC BUSINESS

PTC Sales Starts In Vietnam and Adds New Product Offerings.

Kuala Lumpur – August 9, 2024

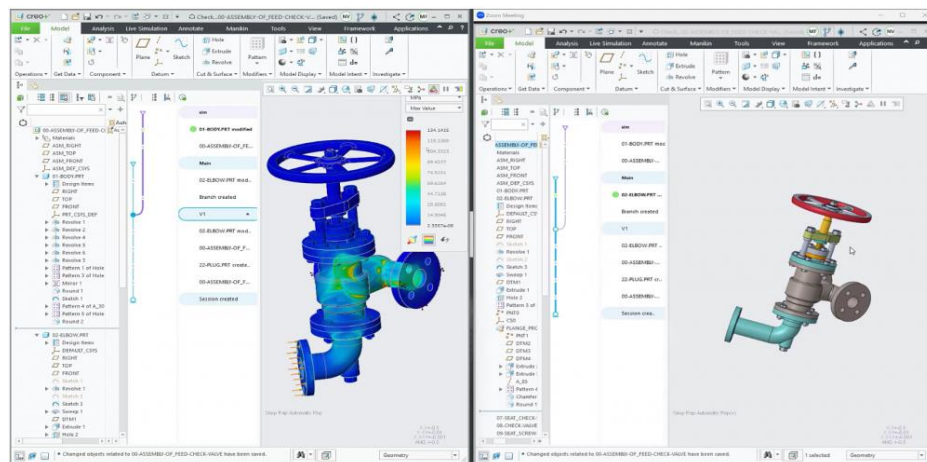

Cybernet Malaysia Sdn.Bhd, today announced that they have been appointed as a [Direct Solution Provider \(DSP\) of PTC](#) in Vietnam. They have been offering [PTC® software](#) such as ThingWorx® IIoT Platform and Vuforia® Enterprise AR to their clients in Malaysia since 2021. The recent agreement not only expands their territory, but also adds several new product offerings to their portfolio that includes Creo®, PTC's award-winning 3D CAD system.

“We have been providing Computer-Aided Engineering simulation software and related services to our customers in Vietnam for several years. Now, we aim to leverage the country's rapidly growing industrial sector and increasing interest in digital transformation by providing PTC solutions. It will enable efficiency and innovation across industrial and manufacturing companies in Vietnam,” said **Arnie Cheng, Managing Director, Cybernet Malaysia Sdn.Bhd.**

“Newly added products will be available in both Malaysia and Vietnam.,” he further commented.

[Creo and Creo+ SaaS Offering](#)

Creo enables its users to design, validate, and manufacture innovative products faster while Creo+ offers all the capabilities of Creo, along with cloud-based collaboration and license-management tools.

Creo+ facilitates real-time collaboration among multiple collaborators enabling concurrent design as opposed to the sequential design found in traditional collaboration tools.

PTC's Ansys Powered Products

CYBERNET Malaysia's expanded product offerings also include PTC's Ansys® powered products. This new addition will complement their strong CAE business presence throughout the region.

"We are very excited to announce the extended collaboration with Cybernet to cultivate opportunities in Vietnam together. PTC's proven solutions in Computer-Aided Design (CAD), Internet of Things (IoT), Augmented Reality (AR), and beyond are a game changer for customers across all industries in APAC. We will work together to bring our customers the benefits of PTC Solutions and further expand the framework of the existing PTC partner network to a wider range of value. We look forward to leveraging each other's strengths to help our customers drive their digital transformation in the future."

Lau Shaw Luen, VP & General Manager, PTC South East Asia, Australia & New Zealand

About PTC

PTC is a global software company that enables industrial and manufacturing companies to digitally transform how they engineer, manufacture, and service the physical products that the world relies on. Headquartered in Boston, Massachusetts, PTC employs over 7,000 people and supports more than 30,000 customers globally. For more information, please visit www.ptc.com.

About CYBERNET MALAYSIA

Cybernet Malaysia Sdn.Bhd. supports customers in Malaysia, Singapore, Thailand, Vietnam, and other ASEAN countries. They provide a wide variety of software, technical support, engineering services and training in areas such as Computer-Aided Engineering (CAE), Vehicle Simulation, Casting Simulation, Tolerance Analysis, and Digital Engineering solutions that combine CAE with emerging technologies for Digital Transformation, such as IoT, AR-VR, Digital Twin, Big Data analysis, and AI. More details on <http://www.cybernet.asia/>.

CYBERNET MALAYSIA is a wholly owned subsidiary of Cybernet Systems Co., Ltd., headquartered in Tokyo, Japan. Since its establishment in 1985, they have been recognized for their engineering proficiency in both scientific and digital technologies. The company provides solutions and consulting services in areas such as computer simulation, digital transformation, and cybersecurity. Today, the company leads the industry in various fields by providing innovation in engineering chains centered on CAE, MBD, MBSE, and AI-driven simulations. CYBERNET is also a pioneer in AI-assisted medical image processing. More details on <https://www.cybernet.co.jp/english/>.
